User stories

1. As a user of the site, I want to immediately see the name of the store whose site I entered on the main page to not leave the site without understanding where I got to.
2. As a user of the site, I want to immediately see the contact phone number to have the opportunity to immediately use it to solve questions about interaction with the store.
3. As a user of the site, I want to see a field for searching for products on the site in the top menu to use it as quickly as possible.
4. As a user of the site, I want to see a personal account button in the top menu to access it more easily.
5. As a site user, I want to see a cart button in the top menu to access it more easily.
6. As a user of the site, I want to see the number of products in the cart next to the cart icon to not keep too much information in my head, and then make purchases.
7. As a site user, I want the top menu to be pinned on every page of the site to have quick access to its features.
8. As a user of the site, I want the link of the main page on the logo of the store to return back quickly.
9. As a user of the site, I want to see brand logos next to subcategory names to recognize them visually more quickly.
10. As a user of the site, I want the product cards to have clear and informative photos to understand fast what products it represents.

Requirements

1. Place a logo with the name of the store in the upper left corner
2. Add a contact phone number and a call button to the top menu of the site
3. Add a input and a yellow search button to the top menu
4. Add the personal account button to the top menu on the right
5. Add a red button with a white basket icon to the top menu on the right
6. Add the number of added products next to the cart icon
7. Pin the top menu on each page of the site
8. Add link to main page on the logo of the store
9. Add brand logos next to product subcategory names
10. Add clear and informative photos to product cards
